Farhana Ashiq

Princeton, NJ 08852 | (609) 968-6770 | farhanaashiq07@gmail.com | www.linkedin.com/in/farhana-ashiq-79826337b

Education

Rutgers University–New Brunswick, Honors College New Brunswick, NJ

B.S. in Computer Science, Data Science, & B.A. in Economics *Aug 2025 – Dec 2028 (Expected)*

- **CS Tracks:** Software Engineering & Info Management, Computer Security, Software Systems
- **Economics Certificates:** Economic Data Analytics, Financial Economics
- **Relevant Coursework:** Data Structures, Intro to Discrete Structures I & II, Software Methodology, Data Management for Data Science

Experience

Treasurer, CoFounder Fall 2026 - Present

AI in Medicine and Healthcare, AIMHA

- Co-founded an interdisciplinary student organization focused on exploring applied artificial intelligence, predictive analytics, and machine learning models in clinical diagnostics and healthcare.
- Direct event planning and operational logistics, researching topics at the intersection of AI and medicine to curate presentations, coordinate external vendor partnerships, and lead meeting discussions.

Board Member, Social Team Spring 2026 - Present

Muslim Tech Collaboration

- Plan and coordinate club events, managing logistics and attendee experience to drive turnout and engagement
- Co-organized an 8-hour hackathon with 20+ participating teams, coordinating registration, food logistics, venue setup, guest speaker invitations, and judge recruitment

AI & Android App Development Intern Summer 2024

Regain AI

- Helped develop an AI algorithm to classify apps as addictive or non-addictive, achieving 95% accuracy by analyzing time-use patterns and app descriptions
- Worked under the mentorship of the lead developer, applying Android development skills in a collaborative team environment to optimize an Android version of Apple Screen Time

Projects

Family Expense Parser | *Next.js, TypeScript, Claude API, PDF Parsing*

- Developed a web application that converts bank and credit card PDF statements into structured family spending data
- Integrated Claude API to categorize transactions, identify spending patterns, and compare spending across family
- Built AI-driven insights that identify high-spending areas and generate personalized budgeting and savings recommendations

Room Decor Recommendation App | *React Native, YOLOv8, Computer Vision, Firebase*

- Developed a mobile app that analyzes room images using object detection to recommend decor items
- Integrated AI-based object detection with user preference ranking logic
- Designed a shopping cart system using HashMaps and API-based product retrieval

Autonomous Agent Navigation | *Python, Unity ML-Agents, Reinforcement Learning*

- Trained an autonomous agent to locate a target in a simulated environment using reward shaping
- Improved training efficiency by refining reward functions and boundary constraints

Technical Skills

Languages: Python, Java, HTML, CSS, JavaScript, SQL
Tools & IDEs: Android Studio, Visual Studio Code, PyCharm, GitHub, Unity
Software: Adobe Creative Suite, Excel, Microsoft Outlook
AI/Data: Machine Learning, Computer Vision, YOLOv8, Feature Engineering, Prediction Models
Databases: SQLite, Firebase
Concepts: Data Structures, Algorithms
